

TCT07058

Ultra Heater (AC100V/250W) ULH-1

- Maximum heat: 800°C
- Excellent heat conductivity enables continuous or intermittent operation
- High cost saving
- Purpose: Soldering, removing, hardening, drying, etc

Operations:

- Electric power: Connect to AC100V adjustable triac connector
- Air source: Connect pressure regulator and fluid meter to clean compressed air (passed through air filter and regulator) or N₂, Co₂ tank
- Pipe arrangement: Use silicone hose or air hose
